The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/597,237	Applicant(s) KWAK, YOUNG-SHIK	
	Examiner RACHEL A. RUNNING	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 July 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Priority

1. It is noted that this application appears to claim subject matter disclosed in prior PCT/KR2005/000132 and Korea 20-2004-0001203, filed 1/14/2005 and 1/16/2004 respectfully. A reference to the prior application must be inserted as the first sentence(s) of the specification of this application or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e), 120, 121, or 365(c). See 37 CFR 1.78(a). For benefit claims under 35 U.S.C. 120, 121, or 365(c), the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of all nonprovisional applications. If the application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference to the prior application must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. If the application is a utility or plant application which entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the specific reference must be submitted during the pendency of the application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2)(ii) and (a)(5)(ii). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of

Art Unit: 3732

any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A benefit claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed benefit claim under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) the reference required by 35 U.S.C. 120 or 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

If the reference to the prior application was previously submitted within the time period set forth in 37 CFR 1.78(a), but not in the first sentence(s) of the specification or an application data sheet (ADS) as required by 37 CFR 1.78(a) (e.g., if the reference was submitted in an oath or declaration or the application transmittal letter), and the information concerning the benefit claim was recognized by the Office as shown by its inclusion on the first filing receipt, the petition under 37 CFR 1.78(a) and the surcharge under 37 CFR 1.17(t) are not required. Applicant is still required to submit the reference in compliance with 37 CFR 1.78(a) by filing an amendment to the first sentence(s) of the specification or an ADS. See MPEP § 201.11.

2. Acknowledgment is made of applicant's claim for priority based on an application filed in Korea on 1/14/2005. It is noted, however, that applicant has not filed a certified copy of the PCT application as required by PCT Rule 17.2(a).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claims 1-6 contain the trademark/trade name Velcro. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name.

6. Claim 1, line 8, states "wherein the hair accessory includes an artificial hair", however, this was already stated in claim 1, line 3 "a hair accessory including an artificial hair".

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 2, 3, 5/1, 5/2, 5/3, 6/1, 6/2, and 6/3 are rejected under 35 U.S.C. 102(b) as being anticipated by Garufi (US 3,980,092).

Regarding claim 1, Garufi discloses a hair accessory comprising a hair holding unit (20) combined with real hair and a hair accessory (10) including artificial hair which is combined to the hair holding unit in a Velcro manner (see Figure 1; column 2, lines 40-45). The hair holding unit includes at least one holder (20, 20', 20'') fixed to the real hair and a holder combiner (21) combined to the hair accessory in a Velcro manner (see Figure 1; column 2, lines 45-50). The hair accessory is provided in a lower portion and an accessory combiner (30) is provided at a top of the artificial hair and combined to the hair holding unit in a Velcro manner (see Figure 1). One of the holder combiner (21) and the accessory combiner (30) is provided with a plurality of hooks and the other is provided with a plurality of loops (see Figure 1; column 2, lines 60-65). Regarding claim 2, the hair holding unit has a body with a tube shape that allows injection of an adhesive therein (column 2, lines 45-50), it has been held that the recitation that an element is "capable of" performing a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. In re Hutchison, 69 USPQ 138. Regarding claim 3, the hair holding unit has a body made

Art Unit: 3732

from a material with plasticity which does not elastically restore to its original shape after being pressed (column 2, lines 45-50). Regarding claims 5/1, 5/2, and 5/3, the hair holding unit has fixers (i.e. hairpins) protruding rearward from the upper and lower ends of the holder (column 2, lines 45-50). Regarding claims 6/1, 6/2, and 6/3, the holder has the body in a clip shape which has an opening at one side (see Figure 1; column 2, lines 45-50).

Claim Rejections - 35 USC § 103

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claims 4 and 6/4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Garufi (US 3,980,092) in view of Arroyo et al. (US 6,938,624).

Garufi discloses the claimed invention except for a friction layer being coated on an inner side of the holder.

Arroyo et al. teach a hair holding unit with a friction layer being coated on the inner side of the holder (column 4, lines 20-25). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the hair holding unit of Garufi with a friction layer located on the inner side thereof as taught by Arroyo et al. in order to aid in holding the user's hair.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RACHEL A. RUNNING whose telephone number is (571)272-1917. The examiner can normally be reached on Monday-Friday 7:00 am - 4:00 pm.
